

Income from Assets

### Key Terms and Concepts for Section 7<sup>1</sup>

**Age**. Age classification is based on the age of the person at his or her last birthday as of March 2011. A married couple's age is defined as the age of the husband—unless he is under age 55 and the wife is 55 or older, in which case it is the age of the wife.

**Aged unit**. With age 55 as the cutoff, aged units are defined as married couples living together at least one of whom is 55 or older—and nonmarried persons 55 or older.

**Marital status**. Married persons are married and living with their spouse. Nonmarried persons may be divorced, widowed, never married, separated, or married but living apart from their spouse.

**Race**. The categories White alone, Black alone, and Asian alone reflect respondents who reported only one race. Because of changes to

the race category, data on race are not directly comparable to editions prior to 2002. A person's race is his or her reported race. A married couple's race is defined as the race of the husband.

**Hispanic origin**. Persons of Hispanic origin may be of any race. A married couple is of Hispanic origin if the husband is of Hispanic origin.

**Family**. A family is a group of two or more people (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such people (including related subfamily members) are considered as members of one family.

**Social Security beneficiary**. A beneficiary may be receiving retired-worker benefits, dependents' or survivor benefits, disability benefits, or transitionally insured benefits.

Asset income. Includes interest, dividends. income from estates or trusts, and net rental income or rovalties. Interest income. Interest includes payments people receive (or have credited to their accounts) from bonds, treasury notes, IRAs, certificates of deposit, interestbearing savings and checking accounts, and all other investments that pay interest. Dividends. Dividends include income people receive from stock holdings and mutual fund shares. The CPS does not include capital gains from the sale of stock holdings as income. Rents, royalties, and estates and trusts. Include net income people receive from the rental of a house, store, or other property, receipts from boarders or lodgers, net royalty income, and periodic payments from estate or trust funds.

<sup>&</sup>lt;sup>1</sup> For more information, consult the Glossary at the front of this publication.
