## Chart 6.

Percentage distribution, by state, December 2004
The state distribution of section 1619 cases mirrors that for all working recipients in Chart 2. Proportions of section 1619 cases were higher in the Midwest and lower in the South.

SOURCE: Table 9.

## Chart 7.

Percentage distribution, by age, December 2004
Recipients who benefit from section 1619(a) are younger than those who benefit from 1619(b).

[^0]
## Chart 8.

Percentage distribution, by diagnostic group, December 2004
As with all working recipients, the majority of the section 1619 participants were diagnosed with a mental disorder. Two-thirds of participants under section 1619(a) and three-fifths of participants under section 1619(b) had either mental retardation or other mental disorders.

SOURCE: Social Security Administration, Supplemental Security Record (Characteristic Extract Record format), 100 percent data.
NOTES: When the substantial gainful activity (SGA) level is periodically raised, SSI recipients with earnings below the increased SGA level become eligible for regular SSI benefits rather than the special cash payments under section 1619(a). This can lead to decreases in the number of 1619(a) participants.
. . = not applicable; -- = not available.
a. Includes blind participants. Of the 73,681 participants in December 2004, 1,178 were blind.

NOTE: -- = not available; . . . = not applicable.
a. The sum of the entries may be greater than the total because some recipients may receive more than one type of earned or unearned income, or both earned and unearned income, or benefit from more than one work incentive provision.
b. Includes 16 persons with a PASS that excludes only resources.

| Other | 0.2 | 0.4 | 0.2 |
| Unknown | 6.2 | 7.6 | 9.8 |

SOURCE: Social Security Administration, Supplemental Security Record (Characteristic Extract Record format), 100 percent data.
NOTE: Effective with the December 2002 edition, all recipients in each recipient category are included when computing percentages for each diagnostic category. Previously, only recipients with identified diagnoses were included in this computation.
a. Most disabled recipients classified as blind are included in this category. A few blind recipients with a primary impairment other than diseases of the eye are coded in other categories. Also, a few recipients are classified with diseases of the eye, but their impairment does not meet the definition of blindness.
